Dear Sir or Madam,

As prescribed by current Colorado law, our office is required to discover, classify, list and value property based upon its actual use. The attached form will help us determine if your property meets the qualifications for Colorado's agricultural land designation and subsequent preferential tax treatment as described in Colorado Revised Statutes (39-1-102). This is for valuation purposes only, and **does not** dictate the use or zoning of your land.

Please complete the attached questionnaire; it is important that we receive verification of your agricultural activities on the affected property. Please note the examples of documentation we are requesting.

Pursuant to current Colorado Revised Statutes it takes three years to establish Agricultural status. Please complete the following and return to me with a minimum of three years (Two year plus current) income/expense data on your agricultural endeavor. Please call with any questions.
